Christian Armando Velasco Estrada

aka Culichi.

Electrical Assistant I Residential Maintenance & Industrial Training

christian@culichi.lat · culichi.lat
github.com/ByCulichi · linkedin.com/in/culichi

Professional profile

Electrical assistant with documented residential work and installation-board/float-switch practice. Five completed Udemy and LinkedIn Learning courses cover installations, conductor selection, measurements, drawings, panelboards, transformers and VFD foundations. Main training continues at Universidad Internacional · RED CONOCER.

Target roles

· Electrical assistant · Electrical maintenance assistant · Industrial electricity trainee

5	6	UI · CONOCER
Completed courses	Documented jobs & course practices	Main training in progress

Electrical work & course experience

01

Residential work and course practice supported by evidence. Industrial training is ongoing.

Residential outlets, switch & lighting

- Work & documented practice

Residential outlet and switch work, including a new white-plate assembly, and two replacement ceiling luminaires.

- Original photographs document the work, including nine from the earlier outlet practice and thirteen from the new outlet/switch work.
- Separate outlet cases record 119.3, 122.0 and 124.4 V AC.

Electrical Assistant I Residential Maintenance & Industrial Training

Electrical work & course experience

01 continued

Installation board & float-switch control

- Course practice

Course practice in residential installation and float-switch control.

- Assembled and wired an installation board, documented with original photographs.
- Recorded a video demonstration of float-switch operation. START/STOP contactor practice remains planned.

Technical skills & course summary

02

Residential installations & conductors

Outlet, switch and luminaire replacement; connection diagrams. Completed coursework in feeder/branch circuits, conductor ampacity, voltage drop, protection and grounding conductor selection.

Outlets & lighting | Conductors | Protection

Electrical measurements

Digital multimeter use, AC/DC voltage and clamp-current measurement, resistance and de-energized continuity. Separate outlet cases record 119.3 V AC and 122.0 V AC.

Multimeter | AC/DC | Continuity

Drawings & electrical calculations

Electrical symbols, one-line, wiring, motor and ladder diagrams. Coursework in Ohm's/Watt's laws, power factor, VA/m² loads and branch-circuit counts; conduit sizing with correction/adjustment factors in comprehensive cases.

Drawings | Calculations | Circuits

Panelboards, transformers & VFDs

Completed coursework on panelboards, breakers/fuses, transformer types/connections and VFD components/control. Industrial motor and contactor training continues in RED CONOCER.

Panelboards | Transformers | VFD foundations

Electrical Assistant I Residential Maintenance & Industrial Training

Completed courses & ongoing education

03

Udemy

Electrical Conductor Calculations and Selection

- Completed · 5 November 2026 · 5 hours

Coursework in power factor, feeders and branch circuits, VA/m² loads, ampacity, voltage drop, protection and grounding conductors, conduit sizing and correction/adjustment factors through comprehensive cases.

View original certificate

Udemy

Basic Electrical Installations

- Completed · 2 November 2026 · 7.5 hours

Residential circuits, Ohm's and Watt's laws, switch/outlet diagrams, electrical plans, power factor, feeders and branch circuits, conductor ampacity, voltage drop and protective-earth conductor selection.

View original certificate

Udemy

Electrical Measurements

- Completed · 30 October 2026 · 2 hours

AC/DC voltage, clamp-current measurement, resistance, de-energized continuity, protection checks and multimeter measurement categories.

View original certificate

LinkedIn Learning

Electrical Systems: Reading Drawings and Schematics

- Completed · 30 October 2026

Electrical symbols, site/plan views, one-line and riser diagrams, schedules, wiring and motor diagrams, ladder logic and introductory PLC diagrams.

View original certificate

LinkedIn Learning

Electrical Systems: Panel Boards, Frequency Drives, and Transformers

- Completed · 2 November 2026

Transformer types, calculations and connections; panelboards, load centers, breakers and fuses; VFD components, installation principles, control and sensors.

Electrical Fundamentals & Industrial Electricity

- In progress

Main program in progress: electrical foundations; materials; residential installations; control; industrial motors; maintenance and diagnosis; renewable energy; final project. I connect the topics with installation-board, float-switch and residential practice.
