Residential Electrical Maintenance & Industrial Training

christian@culichi.lat · culichi.lat
github.com/ByCulichi · linkedin.com/in/culichi

Residential electrical maintenance with documented outlet, switch and ceiling-light replacements, polarity and protective-earth checks. Complementary training in AC/DC measurement, industrial electricity and control.

Documented practical work

- Residential installation practice board and float-switch control exercise completed during training.
- Residential work: two documented outlet-replacement cases, switch replacement and replacement of two ceiling luminaires.
- Polarity and protective-earth checks confirmed; a recorded multimeter reading of 119.3 V AC and a 16-photo outlet service record. Original evidence: culichi.lat/electrical.

Training

- LinkedIn Learning: Electrical Systems: Reading Drawings and Schematics — completed.
- Universidad Internacional / RED CONOCER: residential and industrial electrical training — in progress.
- Udemy: Basic Electrical Installations — in progress.
- Udemy: Electrical Measurements — in progress (AC/DC voltage, clamp current, resistance and de-energized continuity).

Applied knowledge in training

- Electrical drawings and symbols; Ohm's/Kirchhoff's laws, circuit analysis, cable selection, residential loads and installation standards.
- AC/DC voltage, clamp current, resistance, de-energized continuity, protective devices and multimeter safety ratings.
- Industrial training: three-phase systems, motor starting/protection, control/power circuits, contactors and introductory VFDs.
- Fault diagnosis, maintenance planning, project calculations and photovoltaic/energy-efficiency foundations. START/STOP contactor practice remains planned.

Transferable experience

- 7 years of bilingual service/support; TCS operations supervision, SLA follow-up and incident escalation.
- TTEC: Tier 2 mobile support, root-cause analysis and technical training. Bilingual English/Spanish.

Languages: English / Spanish — bilingual customer service experience
