aka Culichi.

Frontend Development & Python Automation

christian@culichi.lat · culichi.lat
github.com/ByCulichi · linkedin.com/in/culichi

Frontend development with React, Next.js and TypeScript, supported by public GitHub projects and Python automation for Excel reports. Partial software development studies at Academlo.

Selected GitHub projects

- Mirror and RonnysPage: responsive interfaces with React, Next.js, TypeScript and Tailwind CSS.
- Calculator-Culichi (React/TypeScript), Todo-Culichi and WeatherApp-Culichi: interface logic, task management, browser storage and OpenWeatherMap API queries.

Automation & practical delivery

- Culichi-Metrics: Python, pandas and XlsxWriter for Excel KPI reports, conditional formatting and charts.
- culichi.lat: bilingual React/TypeScript portfolio with reusable components, accessibility, localized PDFs and a GitHub/Vercel workflow. Nine public projects, including Journey_blog and Portfolio-Culichi.

Technical skills & learning

- HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Git/GitHub and Vercel.
- AWS Cloud Practitioner — preparation in progress. Continued exploration of Node.js and backend development.

Education & transferable experience

- Academlo: incomplete frontend, backend and full-stack studies.
- 7 years in bilingual customer service, technical support and operations; TCS supervision and TTEC Tier 2 support/training.

Languages: English / Spanish — bilingual customer service experience
