MULTIDISCIPLINARY

Christian Velasco

Christian Armando Velasco Estrada

aka Culichi.

Junior Technical Profile | Web Development & Practical Projects

christian@culichi.lat · culichi.lat
github.com/ByCulichi · linkedin.com/in/culichi

Professional profile

I build responsive web interfaces and automate Excel reports with Python. My portfolio also includes three educational security investigations, documented residential electrical work and three iPhone repairs. I bring a practical approach: organize the task, document the process and present evidence of the result.

Target roles

· Junior web development · Python reporting automation · Technical assistant / trainee

5	EN / ES	Practice

Selected development projects

01

Ronny's Food Truck

Responsive food-truck website with a 28-product interactive menu, four categories and a seasonal visual identity.

- Built category navigation, product selection and an original-menu viewer with zoom.
- Adapted layouts for phone and desktop, with category-based character outfits and reduced-motion controls.

Next.js · React · TypeScript · Tailwind

View work

culichi.lat

Bilingual React/TypeScript portfolio with accessible navigation and documented work.

- Built reusable components, responsive layouts and local galleries.
- Integrated localized PDF generation and a GitHub pull-request / Vercel delivery workflow.

React · TypeScript · Tailwind · Vite

World's Finest Shows

- **Prototype**

Reference-based carnival homepage prototype with React 19, TypeScript and Vite.

- Built responsive navigation, six-category attraction filters, search and keyboard-accessible detail dialogs.
- Recreated the reference design with local fonts and images; newsletter feedback remains local to the prototype.

React 19 | TypeScript | Vite | CSS

Hands-on experience & educational investigations

02

Documented technical work and educational practice across the portfolio. Software projects are presented separately above.

VPN authentication investigation

- **Educational lab**

Educational LetsDefend investigation of VPN authentication events.

- Reviewed logs and correlated the sequence of activity.
- Organized evidence and documented the investigation verdict.

VPN | Log analysis

View work

RDP brute-force investigation

- **Educational lab**

Educational investigation of repeated RDP authentication activity.

- Examined authentication events and organized the evidence.
- Documented investigation steps and response guidance.

RDP | Windows | Playbooks

Hands-on experience & educational investigations

02 continued

Phishing analysis

- Educational lab

Educational analysis of a suspicious email.

- Reviewed suspicious-email indicators and recorded findings.
- Documented evidence and a reusable response playbook.

Email analysis | Documentation

View work

Residential outlets, switch & lighting

- Completed work

Residential work: two documented outlet-replacement cases, a switch replacement and two ceiling luminaires.

- Recorded the initial condition, replacement, mounting and final checks with original photographs.
- Confirmed polarity and protective-earth checks; one case includes a recorded 119.3 V AC measurement.

Residential | Measurement | Documentation

View work

Installation board & float-switch control

- Course practice

Course practice in residential installation and float-switch control.

- Assembled and wired an installation board, documented with original photographs.
- Recorded a video demonstration of float-switch operation. START/STOP contactor practice remains planned.

Wiring | Control

View work

Three completed iPhone interventions

- Documented practice

iPhone 12 Pro / 14 Pro batteries and iPhone XR screen. Confirmed checks: power, charging, touch, cameras, audio, Face ID and battery settings. Original images are grouped by case.

MULTIDISCIPLINARY

Christian Velasco

Junior Technical Profile | Web Development & Practical Projects

Skills I can contribute

03

Software development

Frontend projects, REST queries and Python report automation.

React | TypeScript | Python

Cybersecurity

Educational authentication/phishing investigations and Linux study.

VPN | RDP | Linux

Electrical maintenance

Documented residential work, measurement and installation-board practice.

Residential | AC/DC

Electronics

Components, measurement instruments, circuit diagnosis and soldering foundations.

ETO | Circuits | Soldering

Technical repair

Three documented iPhone repairs and LIDETEC course practice.

Batteries | Displays | Diagnostics

Additional web projects

04

Mirror

Responsive music-player interface built with reusable components and a dark visual system.

Next.js | React | TypeScript | Tailwind

View work

Culichi-Metrics

Python automation for daily and team Excel KPI reports.

- Processed tabular data with pandas and generated workbooks with XlsxWriter.
- Applied formatting, conditional rules and charts to present the report.

Python | pandas | XlsxWriter | Excel

Education & credentials

ETO
Escuela Tecnológica de Occidente
Basic Electronics
- In progress

In progress in Guadalajara; expected completion in February. Components, circuits, diagnosis, metrology and measurement. Television; radio reception and amplifiers; digital systems; microcontrollers; microcomputers; industrial electronics. These six tracks have not started yet.

UI
Universidad Internacional · RED CONOCER
Electrical Fundamentals & Industrial Electricity
- In progress

Main program in progress: electrical foundations; materials; residential installations; control; industrial motors; maintenance and diagnosis; renewable energy; final project. I connect the topics with installation-board, float-switch and residential practice.

Udemy
Basic Electrical Installations
- In progress

Residential installations and electrical foundations. Certificate pending course completion.

Udemy
Electrical Measurements
- In progress

AC/DC voltage, AC clamp current, resistance, de-energized continuity and protection checks. Certificate pending course completion.

A
Academlo
Frontend, Backend & Full Stack
- Incomplete studies

Incomplete studies in web interfaces, APIs, server logic and frontend/backend integration, applied in personal projects.

LX
Institution not specified
Linux diploma program
- In progress

Command line, permissions and system fundamentals. Diploma in progress; institution and completion document not yet provided.

AWS
Amazon Web Services
AWS Cloud Practitioner
- Exam preparation

Preparing for the official exam. The exam has not yet been passed and the credential has not been obtained.
