My profile

Currently studying basic electronics at Escuela Tecnológica de Occidente, with additional smartphone repair coursework at LIDETEC.

ETO
Basic electronics in progress

LIDETEC
Complementary coursework

Circuits
Laboratory practice

Skills & capabilities

01

Components & circuits

Physical identification, behavior and validation of electronic components, individually and in circuits.

Components · Circuits · ETO

Measurement & metrology

Training with multimeter, oscilloscope, logic probe, thermometer and power supply; applied mathematics.

Multimeter · Oscilloscope · Power supply

Drawings & diagnosis

Reading and drawing electronic symbols; observing, measuring, isolating faults and verifying results in course work.

Diagrams · Diagnosis · Laboratory

Soldering & board care

LIDETEC practice with soldering iron, hot air, components, connectors, shielding and introductory microsoldering.

Soldering · Hot air · Connectors

Basic Electronics Student

Electronics laboratory experience

02

Basic-electronics training at ETO and complementary hands-on smartphone practice. The upcoming ETO specializations are listed separately as a learning plan.

ETO laboratory practice

- Training in progress

Basic electronics exercises in components, circuit behavior, instrument use, diagram interpretation and structured diagnosis.

View work

Smartphone practice

- Documented practice

Documented iPhone 12 Pro / 14 Pro battery replacements and an iPhone XR display replacement complement the LIDETEC course foundations.

Certifications & education

03

ETO

Escuela Tecnológica de Occidente

Basic Electronics

- In progress

In progress in Guadalajara; expected completion in February. Components, circuits, diagnosis, metrology and measurement.

LD

LIDETEC · Liceo de Tecnología

Smartphone Repair

- Participation certificate available

Participation certificate issued on 1 August 2026 in Guadalajara. Practical training in smartphone diagnosis and repair.

View original certificate

Learning plan

04

Upcoming ETO specializations

- Planned

Television; radio reception and amplifiers; digital systems; microcontrollers; microcomputers; industrial electronics. These six tracks have not started yet.
