Christian Armando Velasco Estrada

aka Culichi.

**Electrical Assistant | Residential Maintenance & Industrial Training**

christian@culichi.lat · culichi.lat
github.com/ByCulichi · linkedin.com/in/culichi

## Professional profile

Electrical assistant with documented residential work and installation-board/float-switch practice. Four completed Udemy and LinkedIn Learning courses cover installations, measurements, drawings, panelboards, transformers and VFD foundations. Main training continues at Universidad Internacional · RED CONOCER.

### Target roles

· Electrical assistant · Electrical maintenance assistant · Industrial electricity trainee

| 4 | 5 | UI · CONOCER |
|---|---|---|
| Completed courses | Documented jobs & course practices | Main training in progress |

## Electrical work & course experience

01

Residential work and course practice supported by evidence. Industrial training is ongoing.

### Residential outlets, switch & lighting

- Completed work

Outlet and switch replacements and installation of two replacement ceiling luminaires.

- Photographic record of the initial condition, connections, mounting and result.
- Documented 119.3 V AC reading at an outlet.

Electrical Assistant I Residential Maintenance & Industrial Training

## Electrical work & course experience

01 continued

### Installation board & float-switch control

- Course practice

Course practice in residential installation and float-switch control.

- Assembled and wired an installation board, documented with original photographs.
- Recorded a video demonstration of float-switch operation. START/STOP contactor practice remains planned.

## Technical skills & course summary

02

### Residential installations & conductors

Outlet, switch and luminaire replacement; interpretation of connection diagrams. Coursework in feeders, branch circuits, ampacity, voltage drop and protective-earth conductor selection.

Outlets & lighting | Conductors | Protection

### Electrical measurements

Digital multimeter use, AC/DC voltage and clamp-current measurement, resistance and de-energized continuity. Recorded 119.3 V AC in a documented residential outlet case.

Multimeter | AC/DC | Continuity

### Drawings & electrical calculations

Electrical symbols, one-line, wiring and motor diagrams, plans and ladder diagrams. Ohm's and Watt's laws, circuit foundations and power factor studied in completed courses.

Drawings | Calculations | Circuits

### Panelboards, transformers & VFDs

Completed coursework on panelboards, breakers/fuses, transformer types/connections and VFD components/control. Industrial motor and contactor training continues in RED CONOCER.

Panelboards | Transformers | VFD foundations

## Completed courses & ongoing education

03

Udemy

### Basic Electrical Installations

- Completed · 2 November 2026 · 7.5 hours

Residential circuits, Ohm's and Watt's laws, switch/outlet diagrams, electrical plans, power factor, feeders and branch circuits, conductor ampacity, voltage drop and protective-earth conductor selection.

View original certificate

Udemy

### Electrical Measurements

- Completed · 30 October 2026 · 2 hours

AC/DC voltage, clamp-current measurement, resistance, de-energized continuity, protection checks and multimeter measurement categories.

View original certificate

LinkedIn Learning

### Electrical Systems: Reading Drawings and Schematics

- Completed · 30 October 2026

Electrical symbols, site/plan views, one-line and riser diagrams, schedules, wiring and motor diagrams, ladder logic and introductory PLC diagrams.

View original certificate

LinkedIn Learning

### Electrical Systems: Panel Boards, Frequency Drives, and Transformers

- Completed · 2 November 2026

Transformer types, calculations and connections; panelboards, load centers, breakers and fuses; VFD components, installation principles, control and sensors.

UI

Universidad Internacional · RED CONOCER

### Electrical Fundamentals & Industrial Electricity

- In progress

Main program in progress: electrical foundations; materials; residential installations; control; industrial motors; maintenance and diagnosis; renewable energy; final project. I connect the topics with installation-board, float-switch and residential practice.
